

October 20, 2010

Dear Dr. Price,

I hope you know how excited I was to be able to come to see you last week, not only do you make us, your patients, look good but you also give us the confidence to go out each morning knowing that we look as good as possible with just a touch of your hand.

As I said that day to you, you are an amazing woman. You think of others constantly, I always here you up and down the hallway when I am waiting for you to enter my room, telling your patients all kinds of things to make them smile and the way you treat your staff. You will never know how much I appreciate all of the help that you gave me that day. I myself am embarrassed that I could not pay for all of the procedures that you gave to me, but that day will come. This act of kindness made my day and I can never repay your generosity or thoughtfulness. I know that you are always that way with your patients but honestly you went way beyond the call for me that day, just imagine, I now have some ear lobes, something I never thought could happen again.

This note does not touch the surface of my gratitude to you but I did not want another day to go by without thanking you for being the kind of Doctor and person you are. You are what God wants all of us to be, kind to people we meet and thoughtful and generous with your work and time. You are fantastic. Please know how grateful I am and feel blessed to know you.

Sincerely, with Respect, gratitude, and your devoted patient,

Ann Bovard
